REVOLUTIONARY TREATMENTS FOR FEMALE INFERTILITY

EGG FREEZING - FERTILITY FOR SINGLE WOMEN. Dr. Jayesh Gokhale and the Clinical Director of Ferty9 Fertility Center share an interesting scenario. Although she believes that natural child birth is a right of every couple, ideally in Indian society couple usually plan a baby before a woman is 35 years. But in the present scenario due to various social reasons, couples are postponing pregnancy.

EGG FREEZING - FERTILITY FOR SINGLE WOMEN. With the advent of new technologies, new opportunities are available for infertile population. Egg freezing or Oocyte freezing is a reproductive option today for women who wish to preserve their fertility for the future. Also for women diagnosed with cancer who are cancer treatment with radiotherapy and chemotherapy present a risk of damage to Oocytes.
